

FAIZAN ANSARI

Frontend Developer

About Me

My goal is to become a Front-End Developer. I enjoy turning designs into real websites that people can click and use. I've learned how to make sure websites look good on all sorts of devices, from big desktop screens to small smartphones.

PROJECTS

www.bcapoints.in

React Js | CSS | Bootstrap | Node Js | EXpresss
Nov 2023- Jan 2023

We Have created this project specially for BCA students , here they will get BCA notes , book , BCA releted blog and previous year question paper.

We have used MERN tecehnology to build this website.

<http://fmdb.netlify.app/>

React Js | CSS | Axios | TMDB API
May 2023 - June 2023

This is a Website That is clone of TMDB using TMDB API where we can search movie and famous character even we can see their movie and top cast.

<https://videohuby.netlify.app/>

Recat Js | Chakra UI
July 2023 - Agust 2023

I created this website to learn Chakra UI that is a a modern component library for React.

Where I created a carousel, and Dark mode switcher.
