PROJECTS

Movie Rating App

This Movie rating project is mainly used for showing the rating of the movies. In this website users can also search the movie with the name of the movie or with the name of Actors.

YouTube App

I have developed a YouTube clone app using React JS. It is a web application that replicates the main functions of the YouTube platform.

Project Source Code :- <https://github.com/kamleshjat7782/youtube>

About Me

I am a React JS Developer. I have an excellent understanding of React JS, such as Redux, React Router. I excel in developing user-friendly interfaces and creating aesthetically pleasing designs. I am a motivated self-starter who works well in fast-paced environments and am always willing to learn new technologies and tools. I am confident that my skills and experience make me an ideal candidate for the Front End Developer position at Frasher.
