PROFESSIONAL EXPERIENCE

Software Developer

American Epay systems | 2021- present
- Worked as a **Team-coach** and a **software developer**
- I worked on an Employer solutions product where I built complex business logic and dynamic UI to suit the clients requirement . I had to make sure that logic was highly accurate and calculations were precise to compile with harsh US laws.
- Migrated the product to .NET 8 from ASP.NET and created a multi-platform application
- Converted a complex architecture into clean architecture over MVC using Razor pages
- Analyzed user needs and software requirements to determine design feasibility

Junior Software Developer

American Epay systems | 2020-2021
- Joined as a fresher and got exposure into working in a project from scratch
- Worked on creating , optimizing and operating database for already running architecture
- Handled production support , bug fixes and creation of new functionalities for the product
- Worked on optimization of queries , oversaw deployments and configurations of the product

Software Development Intern

Mekvahan | 2017

- Assisted development over inhouse built product
- Created robust , user friendly UI and worked over angular
- Learned development over java , php and Styling over HTML /CSS
- Learned how things work under product based startups
