Objective:

As a dedicated and results-oriented Software Engineer with specialized expertise in Flutter and PHP technologies, I am passionate about creating innovative and user-friendly applications. I am actively seeking opportunities to leverage my skills and contribute to a dynamic team's success.

EDUCATIONAL PROFILE:

Examination	Board/University
Graduation	Kurukshetra University
12th	H.B.S.E
10th	H.B.S.E.

Technical Skills:

- **Programming Languages**: Flutter, JavaScript, HTML, CSS, PHP
- **Frameworks & Libraries**: Flutter, GetX
- **State Management:** GetX, StatefulWidget and setState
- **Authentication**: Firebase, Google Auth
- **Version Control**: Git
- **Development Tools**: VS Code
- **Other**: RESTful APIs, Responsive Web Design, Postman

➢ Flutter (March 2023 - Present):
Leveraging the power of Flutter, I am actively involved in building responsive and visually engaging cross-platform mobile applications. I have successfully delivered projects that demonstrate my proficiency in Flutter's framework.

➢ PHP (October 2022 - February 2023):
During this period, I gained valuable experience in PHP development, contributing to the creation of dynamic and interactive web applications. My exposure to PHP further enhances my versatility as a software developer.

➢ Web Development:
Proficient in HTML, CSS, and Jquery, I am well-equipped to design and develop web-based user interfaces that are aesthetically pleasing and highly functional.

➢ Database Management:
Skilled in working with MySql, I can efficiently design, query, and manage databases to ensure seamless data storage and retrieval.

➢ API Testing and Documentation:
Proficient in utilizing Postman for comprehensive API testing and documentation, ensuring the seamless integration of backend services with frontend applications.

➢ Additional Tools:
My expertise extends to utilizing Firebase for real-time database integration and GetX for state

management in Flutter applications.

EXPERIENCE:

Company Name: TryNet Solutions
Duration: March 10, 2023 - Present
Designation: Mobile App Developer
Projects: Various Projects
Responsibilities:
- Led the development of cross-platform mobile applications using Flutter, delivering responsive and visually appealing user interfaces.
- Utilized GetX for efficient state management, enhancing UI responsiveness and user experience.
- Integrated Firebase for real-time database interaction, ensuring seamless data synchronization across devices.
- Collaborated with designers, backend developers, and QA teams to ensure the successful implementation of features and enhancements.

Company Name: TryNet Solutions
Duration: October 2022 - February 2023
Designation: Web Developer
Projects: Various Projects
Responsibilities:
- Developed dynamic and interactive web applications using PHP, HTML, CSS, and MySql.
- Collaborated with a team to create feature-rich websites, contributing to enhanced user experiences.
- Successfully executed projects including the Elzac Herbals e-commerce Platform, where I integrated PHP backend functionality.
- Collaborated with backend developers and QA teams to ensure seamless integration and functionality of web-based features.

Projects (Flutter):

➢ **AhavaPlan - Wedding Planner App**

- Developed a comprehensive and user-friendly Wedding Planner App catering to the needs of both Wedding Planners and Clients.

- Created the app using Flutter and utilized the GetX state management solution to enhance UI responsiveness and user experience.

- Collaborated with a cross-functional team to implement features that streamline the wedding planning process.

➢ **LookHint - Social Media Platform**

- Spearheaded the creation of LookHint, a dynamic social media platform designed for sharing post suggestions and receiving valuable feedback.

- Developed using Flutter, the project utilized GetX for efficient state management and Firebase for real-time data interaction.

- Engineered features such as friend requests, blocking, video suggestions, and photo sharing to enhance user engagement.

Projects (PHP):

- **DPS Panipat Refinery Website**

    - Contributed to the development of the DPS Panipat Refinery website, utilizing my proficiency in web technologies to create an informative and user-friendly interface.

    - Collaborated with the team to ensure the website effectively communicates the refinery's objectives and services.

- **Elzac Herbals E-commerce Website**

    - Played a pivotal role in building the Elzac Herbals e-commerce platform, delivering a seamless online shopping experience.

    - Leveraged PHP and web development skills to create an intuitive and visually appealing website.

    - Collaborated with the team to integrate secure payment gateways and ensure smooth order processing.

MY STRENGTHS:

- My determination to learn diligence at work
- Adaptable to any environment.
- Good listener.
- Very receptive and committed.

HOBBIES / INTERESTS:

Volleyball, Cricket, Swimming, Listen music
