WORK EXPERIENCE

Associate Software Engineer
Webkul Software Pvt Ltd

10/2022 - Present   *Noida, Uttar pradesh, India*

Achievements/Tasks

- I am here working on e-commerce, hyperlocal, marketplace, POS and delivery boy apps for Magento 2, CS-Cart, Odoo, Presta shop etc. apps.
- I have handle **20+ clients** and live their apps on app store and play store.
- **E-commerce Apps**: These projects deal with e-commerce for the sale of online products. There are different types of products which are available for purchase in the store.
- **Marketplace Apps**: This project deals with the ecommerce marketplace for handling multiple seller's data. In this app, the buyer interacts with vendors/selers to buy the product in one place.
- **Delivery Boy App**: This app deals with e-commerce delivery to deliver the product of e-commerce and marketplace apps.
- **POS App**: Point of sale apps (POS) are the place in a store or elsewhere where the actual business transaction takes place.
- **Hyperlocal Apps**: This project deals with the e-commerce marketplace for handling multiple seller's data with customer location. In this app, the buyer interacts with vendors/sellers to buy the product from a nearby location.
