Architecture| GetX, Stacked, Base

PACKAGES & PLUGIN WORK

ccms_access_qr | Plugin | VYOM PROJECT

To get the default QR camera with overlay design, just like Paytm QR scanner. Design and feature are already in use in previous projects, so just have to integrate and reuse everything.

ccms_ui_showcase | Package | VYOM PROJECT

The purpose of this folder is to store all of the UI components that we have used on this project, as well as to manage the UI using constant files.

ccms_sdk | Package | VYOM PROJECT

To call APIs, we enhanced the http call flow with a logger and implemented auto parsing using cache memory for the same request.

magic_canvas_with_image_export | Package | RealTime Prayers

To handle a custom canvas with the picture export on various dimensions. with the shape resizing, Image resizing, board zoom-in & zoom-out, draw line, arrow, & many more shapes.

URL: https://pub.dev/packages/magic_canvas_with_image_export

PROJECTS

Real Time Prayers | FlutterFlow | Gems Essence infotech

Description: In this app, users may ask for prayer, and the authorities can respond through audio that has been recorded. I have to handle the theme, the global widget, and the player and audio recorder customization for this project.
Android App Link: https://play.google.com/store/apps/details?id=com.realtimeprayers.app
iOS App Link: https://apps.apple.com/vn/app/real-time-prayers/id6464437071

VYOM App by ISG | Flutter | Gems Essence infotech

Description: My responsibilities in this project include managing the route management, the theme, the Figma design to UI, and the scanner and pay module, the stacked architecture. and also custom packages to achieve a clean UI.
Android App Link: https://play.google.com/store/apps/details?id=com.infrasoft.uboi
iOS App Link: https://apps.apple.com/in/app/vyom/id1446060299

Qreative AI | FlutterFlow | Gems Essence infotech

Description: Customize canvas to process image with AI, and return artistic generative QR code. Created custom plugin for Flutterflow, and updated on pub.dev.
Web Demo Link: https://app.qreative.ai/
